FRIDAY 30TH MARCH - SATURDAY 31ST MARCH 2012

ART GALLERY OF SOUTH AUSTRALIA, NORTH TERRACE ADELAIDE

(SATELLITE MEETING TO ASOHNS 2012)

AAFPS

Run under the auspices of the Australasian Academy of Facial Plastic Surgery (AAFPS), this is a two-day mini-symposium, focusing on all aspects of aesthetic/functional Rhinoplasty. Although many basic topics will be covered, the meeting is intended to crystallize more advanced concepts for the Rhinoplasty surgeon. These range from open-structure Septoplasty, through nasal tip/nasal valve surgery and total nasal reconstruction.

The first half-day will also cover facial assessment and various sessions on Otoplasty. Numbers are strictly limited, providing all delegates intimate interaction/discussion opportunity with the faculty. Several panel sessions will be available, including those where delegate cases can be discussed with the experts.
