**Whole Body Fresh Cadaver Workshop and Live Surgery for the Asian Cosmetic Surgery**

Seoul St. Mary's Hospital of Catholic Medical School, Seoul, South Korea

<b>Title</b>	2011 KCCS Asian Cadaver workshop and Live surgery for Cosmetic surgery
--------------	--

Greeting Dear Colleagues,

The Korean College of Cosmetic Surgery, in conjunction with Asian Society of Asian Cosmetic Surgery, Korea Aesthetic Forum, and In-Ha University Medical School, is holding the Fresh Cadaver Workshop for Cosmetic Surgeons at the Catholic University Medical School and live surgery demonstration in Seoul, South Korea.

Aims of this cadaver workshop are to educate the cosmetic surgeons about the intimate knowledge of the basic and surgical anatomy, and for the participants to practice cosmetic surgical procedures on fresh cadaver under the direct supervision of experienced cosmetic surgeons. The best part of this workshop is that the participants will be able to practice cosmetic surgery on 'fresh cadaver' whose state is very similar to live human tissue. And live surgery demonstration after cadaver workshop will also help the participants to have a real sense of realism and increase the practical abilities in the cosmetic surgery procedures.

All supervisors are well renowned cosmetic surgeons and most of them are the fellows and professors of the KCCS. They will devote their undivided attention to the enhancement of the participants' anatomical knowledge and also will take you through the common cosmetic surgical procedures that are outlined in the program. This will be in the form of lectures, cadaver surgery demonstrations, cadaver dissection practice. The participants will be able to attend these programs in person or with the technical help of the supervisor and observe or participate in the surgery as an assistant in the live surgery demonstration.

**"Understanding of anatomy is of fundamental importance in Cosmetic surgery. Therefore practicing cosmetic surgical procedures on 'fresh cadaver' and having an experience of live surgery right after cadaver workshop is of a paramount importance."**

This will be a golden opportunity to enhance your cosmetic surgical knowledge and skills.

We hope you can join us and have a great experience with many brilliant professionals.

<b>Notice before the register</b>	<ol style="list-style-type: none"> <li>1. Because many cadaver demonstrations embracing the whole field of cosmetic surgery will be performed continuously, it will be hard for registrants to experience all cadaver courses. Therefore it will be better for you to decide the fields you have to concentrate upon before you participate in the cadaver workshop and to plan in order to aim for the highest result by considering the allocation of time.</li> <li>2. Regarding the preparation of surgical instruments You are best advised to use your own surgical instruments. So you should bring surgical instruments needed for your fields personally. The organizing committee will offer only basic surgical instruments that are provided to medical students. But gowns, caps, masks and suture thread will be offered and special surgical instruments and consumable materials such as tools for bone surgery, contouring thread, liposuction canular and suction pump and breast implant will be provided.</li> <li>3. When applying, you should know there's a conflicting schedule between Class I+III or III+IV. You can make good use of the conflicting time voluntarily.</li> <li>4. One applicant can use one whole cadaver if you pay a double registration fee.</li> <li>5. Members of the KCCS can get a special discount in every event hosted by the KCCS. Any medical license-holder can join the KCCS. If you want to join the KCCS, you have only to send a required application form and the registration fee.</li> <li>6. Some of the programs and the speakers are subject to change.</li> <li>7. Photographing or videotaping Cadavers (dead body) is not permitted.</li> </ol>
